- First aid kits
- Hospitals
- Sports Centers
- Patient Care Centers
- Your sports bag for instant injury relief
- Home health care: arthritis, tendinitis, swollen Achilles, plantar fasciitis
- Backyard sports activities

Instant Ice Wrap Features and Benefits:

Stays cold for up to 2 hours

Supports injured body parts and provides customized compression and cold therapy during recovery for return to activity

Always ready-to-use

Adjustable for a custom fit

Ideal for wide range of body parts and injuries

Made from latex free materials

No refrigeration required

4 in., stretches to 11.5 feet

Formulated in the USA

HOW DOES IT WORK?

When injury is wrapped, obtain gradual cooling for up to 2 hours. Can help to control swelling for longer periods of time than ice. Requires no refrigeration. Provides immediate compression and cooling by wrapping the injured area for help with pain relief in minutes. Use for knees, wrists, ankles, elbows and muscle injuries.

HOW TO RE-USE INSTANT ICE WRAP

(Reusable up to 3 times if re-packaged correctly)

First, re-roll the Instant Ice Wrap to its original form and insert back into the original package. Second, add 3 tablespoons of water over the top of the wrap, inside the package. Third, re-seal the package tightly. Make sure the seal is tight for correct results.

KEEPING YOU IN THE GAME.

Instant Ice Wrap.
Relieves joint pain.
